

12hx330 fr battery Egypt

What is a datasafe 12hx330 Fr battery?

Loading... EnerSys DataSafe 12HX330-FR valve regulated lead acid batteries have been designed to offer superior solutions for the Information Technology and Uninterruptible Power Supply markets. DataSafe HX batteries are the ideal source of power to protect vital systems.

What is the EnerSys 12hx330 battery?

Learn more The EnerSys 12HX330 Battery features Datasafe top terminals making it ideal for high rate applications and is the ideal power source to protect vital systems. Due to its specialized isolated seal, it can be put in a horizontal way, vertical way and side way, all while maintaining its safety features and functionality.

How long does the EnerSys 12hx330-fr battery last?

With a self-discharge rate of less than 3% per month, the EnerSys 12HX330-FR UPS battery has an expected life up to 10 years in standby use and it can be used for up to 300 cycles at 100% discharge in cycle service.

What is a datasafe 12hx330-fr valve regulated lead acid battery?

OEM product. EnerSys DataSafe 12HX330-FR valve regulated lead acid batteries have been designed to offer superior solutions for the Information Technology and Uninterruptible Power Supply markets. DataSafe HX batteries are the ideal source of power to protect vital systems.

Is EnerSys 12hx330-fr ul recognized?

Classified as High Performance UL recognized and IATA approved (air freight) Any questions regarding the EnerSys 12HX330-FR series? Please feel free to either give us a call toll-free at 1-877-775-4381 or contact us to talk to a specialist today.

What is a datasafe HX top terminal battery?

The DataSafe® HX top terminal battery range of Valve Regulated Lead Acid (VRLA) batteries has been designed to offer superior solutions for the Information Technology (IT) and Uninterruptible Power Supply (UPS) markets. DataSafe HX top terminal batteries are the ideal source of power to protect vital systems.

This is a genuine EnerSys HX 12HX330 rechargeable sealed lead acid battery with high-rate discharge design that guarantees an excellent performance in UPS applications. The genuine ...

12HX330-FR Specifications. Voltage: 12 volt, 82 AH Terminal Type: Threaded Receptacle Normal operating temperature range -22F/-30C to 122F/50C Float charging voltage 2.25 - 2.28 Volts per cell at 77F/25C Charging current - can ...

ENERSYS DATASAFE® 12HX300-FR BATTERIES. Power Storage Solutions is a premier platinum stocking Distributor for the Datasafe 12HX300 batteries. We maintain the batteries in a climate controlled
