What is Aegis Energy?

At Aegis Energy, we are building the future of commercial truck and van fleet recharging and refuelling in the UK. Our mission is to develop a network of clean energy hubs, supporting the needs of commercial fleets with low/zero-emission energies including electric charging, bio-CNG, HVO, and Hydrogen.

What is the Aegis Trust?

The Aegis Trust is an organization that has developed a successful model for peace education in Rwanda, supporting tens of thousands of young people across the country with the knowledge and skills to overcome the legacy of genocide. Peace education was first initiated as a pilot in 2008 at Kigali Genocide Memorial.

What is the peace education programme of Aegis?

Aegis' peace education programme employs a participatory and interactive methodology, where participants learn by doing. In 2013-16, the programme expanded to cover 22 districts through the Aegis-led Rwanda Peace Education Programme (RPEP) and the Genocide Research and Reconciliation Programme (GRRP).

Will Rwanda have 100% electricity access by 2024?

Rwanda is targeting 100% electricity access by 2024, with 52% of the population having access to on-grid electricity and 48% relying on off-grid solutions. The country is endowed with natural energy resources including hydro, solar, and methane gas in Lake Kivu in the west. Currently, it has 225 MW of installed generation capacity.

Can solar power power a healthcare facility in Rwanda?

Solar power can indeed be used to power healthcare facilities in Rwanda. Modular solar energy systems have been installed through a Power Africa grant to provide power and clean drinking water to six off-grid healthcare facilities in Rwanda, including Gasagara healthcare center.

How has Power Africa supported the development of electricity projects in Rwanda?

Power Africa has contributed to the development of 180 megawatts (MW) of electricity generation projects in Rwanda. Additionally, various firms have received U.S. Embassy support to move their transactions forward.
