

The Y.Cube is a fully integrated, ready-to-install lithium-ion battery system that was built on the decade-long expertise of energy storage technology developer Younicos, which Aggreko acquired in 2017. Housed entirely within a standard 20ft (6.1m) container, the 1MW units can be delivered and quickly deployed worldwide.

Our fully integrated, battery storage is a ready-to-install energy system in a standard container. Complete with batteries, inverter, HVAC, fire protection and auxiliary components, all tested by our experts and operated by the smartest software on the market.

With noise reduction and cost-effective generators - you can rely on Aggreko. Get in touch. Hire a 1500 kVA generator for effective temporary power rental. With noise reduction and cost ...

Scalable for Demanding Projects: Compact two-container design enables large-scale energy storage for the toughest environments, providing flexibility and enhanced load management. All-in-One Design: Built-in HVAC, fire suppression, auxiliary power, DC collector, and hydrogen detection/purging ensure safety and reliability in any setting.
