

Is solar a viable alternative to electricity in Albania?

A move toward more solar is partly an attempt to diversify Albania's electricity sources. In "Evaluation and integration of photovoltaic (PV) systems in Albanian energy landscape," which was recently published in Solar Compass, the scientists said that solar is an adaptable and affordable alternative, given Albania's sunny climate.

Could solar power reduce Albania's reliance on energy imports?

Albanian researchers say that solar could be key to reducing Albania's reliance on energy imports, but the nation will need to invest in grid infrastructure, streamline laws, and enhance access to funding to support deployment.

What incentives are there for PV development in Albania?

There are already incentives in place to bolster PV development in Albania across three mechanisms: net metering for PV systems up to 500 kW, feed-in tariffs (FiTs) for projects of up to 2 MW, and an auction scheme for large-scale solar facilities.

19 April 2024 - A subsidiary of RenX Italia requested from the Ministry of Infrastructure and Energy of Albania to install wind park Pogradec of 120 MW. Renewables. Finance in Motion gets innovation award for Blue 1 solar park in Albania.

Lumentech Company Ltd, established in 2010 in Hong Kong, supplies LED lighting products and solutions to the local market and overseas. High energy efficiency, long operating life and reduced maintenance provide incentives to use LED for retrofit and new building applications, which include offices, shopping malls, warehouses, hotels and residences, transport and street lighting.
