

American Samoa automated vertical storage system

What are automated storage and retrieval systems (ASRS)?

ASRS (Automated Storage and Retrieval Systems) are systems used in various industries worldwide for storing and retrieving materials. Mobile Shelving Filing System Design is a specialty offered by ASA for designing and implementing moveable shelving systems.

What is a vertical carousel storage system?

Vertical carousel storage systems maximize picking productivity by using the goods-to-person principle. Operators no longer have to spend time walking and looking for the parts they need. Instead, all parts are stored in a compact footprint and delivered directly to the workstation at the push of a button, eliminating search time.

Why should you consider vertical storage solutions?

Instead of spending countless dollars expanding your warehouse to accommodate for your increase in inventory, take a look at vertical storage solutions that will save you time, and money while increasing safety and security. What do Our Customers Say? Professional Installation and Customer Care.

Our range of high-tech automated solutions includes Hänel Rotomat® industrial and office carousels, the Hänel Lockomat® and the proven Hänel Lean-Lift® and Multi ...

Your local ASA member will assist you with your project every step of the way: from the beginning with space planning & CAD drawing services; then designing a storage system, like high-density mobile shelving; also using certified technicians to install your storage system, and finally providing ongoing maintenance.

Slim is the perfect choice for warehouses with limited floor space that need flexible storage options. Slim uses the same advanced storage technology as our Lift model - boosting productivity, accuracy and inventory management -- but ...

SILO² is an innovative vertical storage system with shifting trays spread over multiple storage columns. Its modular design makes the most of all available space, both vertically and horizontally, adapting perfectly to your real storage needs and providing a faster, more ergonomic solution for storage and retrieval operations

Your local ASA member will assist you with your project every step of the way: from the beginning with space planning & CAD drawing services; then designing a storage system, like high-density mobile shelving; also using certified ...

SILO² is an innovative vertical storage system with shifting trays spread over multiple storage columns.

American Samoa automated vertical storage system

Its modular design makes the most of all available space, both vertically and ...

There are three main types of AS/RS machines: automated vertical lifts, automated vertical carousels, and automated horizontal picking systems. Each of these automated storage ...
