

Angola industrial solar consulting

Does Angola need solar energy?

Angola already boasts an impressive renewable energy component in its energy matrix, primarily derived from water resources. However, we recognise the potential for solar energy to complement this matrix and provide essential energy security.

How will MCA contribute to Angola's solar generation capacity?

MCA aims to contribute significantly to the country's solar generation capacity, leveraging the expertise gained from our ongoing solar projects. This project will be closely intertwined with efficient water resource management. While Angola is rich in water resources, changing climate patterns necessitate comprehensive water management.

Does Angola need water management?

While Angola is rich in water resources, changing climate patterns necessitate comprehensive water management. Our vision extends to associating the energy supply with the water supply. This is a commitment we are already pursuing.

What does MCA group do in Angola?

During its initial decade, the group primarily focused on infrastructure-related projects, which served as the foundation for its expansion into international markets, including Angola, where it has been present since 2006. In Angola, the MCA Group has made substantial contributions, particularly in the construction of roads.

10 11. As of recent data, the number of residential solar panel installations in Angola is also not extensively documented in public sources. In a significant development, Angola's Ministry of Finance is funding the construction of 48 solar PV systems across five provinces - Moxico, Lunda Norte, Lunda Sul, Bie, and Malanje - as of March 2024.

The project will generate over 500 megawatts of renewable power; provide access to clean energy resources across Angola; help Angola meet its climate commitments; and support exports of U.S. solar panels, connectors, switches, sensors, and other equipment. The transaction is estimated to support 1,600 jobs.

Page 3 Epsilon ENERGIA SOLAR Perfíl da Empresa A Epsilon Energia Solar (EES) é uma empresa Moçambicana constituída em 2018 para servir as comunidades rurais, aumentando o acesso a fontes de energia acessíveis Com sede em Maputo, a EES desenvolve a sua actividade principalmente na região centro do país, operando com
