

Ats energy Niger

Is ATS a sustainable solution?

It is a sustainable(99% circular) and cost-effective solution that produces electricity directly from waste heat. For 200 years we've used turbines. ATS' solid-state solution represents a paradigm shift in how heat can be managed. The impact potential is gigatonnes, spanning industries and the world.

What is ATS' solid-state solution?

ATS' solid-state solution represents a paradigm shift in how heat can be managed. The impact potential is gigatonnes, spanning industries and the world. We are radically redefining what's possible to fix the climate. On average, 60% of the energy to power the world's industrial plants (cement, steel, chemicals) is lost as waste heat.

How does the ATS cartridge work?

This is equivalent to the energy used by 4 BILLION homes, twice the number of homes on the planet. Industry and the world needs a solution to this problem to save costs and the climate. The ATS Cartridge produces electricity directly from heat with no moving parts. The old technology utilizes highly complex turbines and hazardous chemicals.

Renewable Energy Systems Installation and Maintenance: From solar to wind and beyond, we design, install and maintain cutting-edge renewable energy systems tailored to meet the unique needs of our clients for domestic and commercial use, with a focus on quality and reliability. Inverter Design, Installation and Maintenance: As an innovative renewable energy company, ...

ATS Energy Solutions is a fast growing provider of engineering, procurement and construction (EPC) services for the oil & gas industry and Power facilities. Project development from feasibility, through FEED, conceptual design and Detailed Engineering. our capabilities extend to every stage of greenfield as well as brownfield development.
