

Bahrain solis panels

Does Bahrain have solar irradiation?

Bahrain is a land with a very high solar irradiation which has lately moved the focus on solar photovoltaic energy development, a topic that Solartecc Green Energy did not miss.

Why is Bahrain launching a solar panel factory?

Mr Rabih Abdullah said that the factory provides solar panels for new projects of the public and private sectors, indicating that the project will produce panels for the Kingdom of Bahrain and the Gulf Cooperation Council countries, especially that the Gulf region is on the verge of using renewable energy.

Where is the new Bahraini solar factory located?

The new Bahraini factory is located in the Bahrain International Investment Zone on an area of 4 thousand square meters where they will produce more than 80,000 solar panels per year, while it will contribute to creating 50 jobs as well as attracting more investments to Bahrain and possibly to other Gulf Cooperation Council countries.

Once the extrusion is complete, Techno-Solis uses highly skilled technicians and the latest technologies to assemble each solar panel. Techno-Solis is the only manufacturer that goes the extra mile by adding a reinforced bead weld to provide additional strength and protection. Step 4: Testing

Techno-Solis Solar Panels. Top Performing Panel. Each Techno-Solis Panel produces a staggering 1,006 BTU per ft²; per day. First to Achieve OG-400 Certification. Techno-Solis has been awarded the first OG-400 certifications for our solar swimming pool water heating systems from the Solar Rating & Certification Corporation (ICC-SRCC).
