

What are the BVI Port Authority Regulations 1995?

The BVI Port Authority Regulations 1995 define Dangerous Goods and sets out their classification into 9 Classes and establishes the rules for the handling and transportation of dangerous goods within BVIPA facilities. Classes and classifications as follows:

When should a BVI port receive a notification of intention?

The BVI Ports Authority must receive notification of intention to arrive at a BVI port 24 hr in advance of arrival, or at latest upon departure from the previous port. The notification should contain the information set out in Part. C of Annex B of MSN1899 (M+F)8 (see page 23 of this document).

Why is BVI Ports Authority required to implement sound operational procedures?

BVI Ports Authority is required to implement sound operational procedures to secure the safe handling of dangerous goods throughout our facilities. These procedures must enable the identification, assessment and control of risks associated with the handling of Dangerous Goods.

Are BVI waters considered UK waters?

For the purposes of the application of adopted legislation the BVI waters are considered to be UK waters. These regulations set out the minimum requirements for vessels bound for or leaving UK and European Community ports and carrying dangerous or polluting goods.

Do BVI flagged ships need a certificate of compliance?

Any BVI flagged ship and any ship transiting through BVI waters carrying nuclear cargo is required to hold a certificate of compliance with the INF Code. This document defines in detail. the Notification process.

Do agents have to report hazardous materials to bvipa?

All Agents or Ship Operators in port are required to report any incidents involving dangerous or hazardous materials forthwith to the BVIPA in order to mitigate further risk and liability while in Territorial Waters or while berthed at a port's facility in accordance with IMO Resolution A.851(20). Incident reports should also include near misses.
