

Battery rack system Eritrea

What is a UBR 12 volt battery rack?

Our UBR 12 Volt rack series is the original "Universal Battery Rack" and was designed to accommodate all major manufacturers' batteries. Lightweight designs and superior engineering make for rack systems that take much less time to install and makes battery installation and battery change-outs a simpler process.

Why should you choose a battery rack system?

Lightweight designs and superior engineering make for rack systems that take much less time to install and makes battery installation and battery change-outs a simpler process. All of our designs allow for superior air flow around the batteries, making every effort to protect your investment.

Are our rack systems NEBS compliant?

Our rack systems are available in a Monopost (one piece) or Modular format. The Modular racks make tight spaces a breeze and allow for future growth as your needs change. All of our racks are NEBS compliant to zone 4 up to 6 levels high.

Explore the best battery racks and cabinets for power system reliability. Learn how they help store, organize and secure batteries in industrial, energy and backup systems.

Charles Indoor Battery Racks (CIBR-R) are bay rack style, Zone 4 seismic compliant (GR-487 certified) battery rack systems supporting 200Ah VRLA or 180Ah Ni-Cd batteries. Multiple configurations, from 2 to 5 battery trays, are available with optional integrated Power Plant kits. Each tray includes a 100 amp breaker and alarm safety features.
