

Belarus man energy solutions products

What does man energy solutions do?

MAN Energy Solutions manufactures large engines for ships and power plants, including gas engines used, for instance, in gas power plants for electricity and district heating generation.

What types of engines does man energy solutions offer?

MAN Energy Solutions has an extensive range of engines and turbines to keep your power plants going strong. Our high-performance gas and liquid fuel engines offer high efficiency and reduced emissions. Our dual fuel engines also provide the added convenience and versatility of being able to seamlessly switch between different fuels.

Who makes man energy solutions turbomachinery?

MAN Energy Solutions manufactures the following turbomachinery: In Deggendorf (Germany) MAN Energy Solutions produces tubular reactor systems for the chemical and petrochemical industries and research organisations under the brand DWE Reactors.

Who owns MAN Energy Solutions?

Prior to the merger of MAN SE into Traton, MAN Energy Solutions was sold to its parent company, Volkswagen. MAN originated from three German predecessor companies, the St. Antony ironworks in Oberhausen, Sander'sche Maschinenfabrik.

How many dual fuel engines does man energy solutions have?

In 2024, MAN Energy Solutions signed a contract with Karpowership, Istanbul, for the delivery of 48 dual-fuel engines for their power ship fleet, with the engines to be distributed across multiple floating power plants.

Why should you choose MAN Energy Solutions?

MAN will support your business with long-term energy supply solutions that give you the necessary flexibility to adapt to changing circumstances. MAN Energy Solutions has the products, solutions and expertise you need to boost the performance of your power plant while optimizing your costs and reducing emissions.
