Who is SHV Energy?

SHV Energy provides decentralised, cleaner and lower-carbon energy solutions to 26 million business and residential customers around the world. We achieve that with the support of our 13,000 employees and our operations located in 25 countries across 4 continents. At SHV Energy, what we do is driven by our vision.

What is SHV Energy doing to support the Global LPG industry?

To support the global LPG industry in its energy evolution, SHV Energy continues to chair the renewable LPG working group. In 2021, we sponsored a joint virtual conference between the World Biogas Association and the WLPGA on the topic of 'Biogases: driving the transition from fossil to green'.

Does SHV Energy support industry competitiveness?

Development and deployment. The World LPG Association, which SHV Energy actively supports, is a founding member of the industry competitiveness. In 2023, two landmark European Union (EU) acts were announced related to industry competitiveness.

Does SHV Energy support a cleaner energy economy?

a cleaner energy economy. SHV Energy supports these decisive actions in their bid to accelerate

How does SHV Energy contribute to the SDGs?

By distributing LPG and switching our customers to cleaner energy sources, SHV Energy helps to eliminate smoke exposure while cooking and improves air quality in cities. This contributes to a reduction in premature mortality and illnesses. We have identified the following four SDGs where we believe our contribution will have the biggest impact.

What is SHV Energy doing to drive the energy transition?

To drive the energy transition, SHV Energy has committed to 100% of our energy being produced from non-fossil, renewable and bio-based feedstock by 2040. The energy solution we currently provide to most of our customers is LPG-based.

SHV Energy provides decentralised, cleaner and lower-carbon energy solutions to 26 million business and residential customers around the world. We achieve that with the support of our 13,000 employees and our operations located in 25 countries across 4 continents.

Globally, SHV Energy aims to position itself within the changing energy market as a supplier of low-carbon and renewable energy options for applications beyond the utility grids. We serve many sectors, including the domestic, industrial, government, hospitality, agricultural, transport and automotive sectors.
