Joint venture (JV) Tesvolt Ocean has developed a battery system whose modules can be installed individually throughout a ship, making optimal use of the often limited ...

September 12, 2024: Tesvolt's Maritime Solutions division announced that it merged with Ocean Batteries from Norway at the start of September to create Tesvolt Ocean. Tesvolt holds a 51% stake in the new joint venture. Tesvolt Ocean will offer the "Kaptein Series" power storage system which it says offers advantages in space, weight and ...

Tesvolt Ocean is offering a novel power storage system, Kaptein, with energy density of 246 Wh per litre, which means it takes up very little space despite its high capacity. As ship spaces are often cramped, the new technology is expected to allow more ships in the maritime and inland shipping sector to be equipped with clean e-drives, Tesvolt ...

Joint venture (JV) Tesvolt Ocean has developed a battery system whose modules can be installed individually throughout a ship, making optimal use of the often limited space on vessels. The Tesvolt Marine Systems subsidiary of Lutherstadt Wittenberg-based Tesvolt, which holds 51% stake in the JV, has already equipped 160 ships with battery systems.
