I was in and walking around this power plant recently. It did not seem like the best kept equipment, though it wasn't exploding at the time. Equatorial Guinea is the weirdest place I've visited, and I've visited a good number of places. The company I was working for assigned me a helper to navigate the airport on my way out.

The terminal is scheduled to be constructed at Punta Europa, which is located on the Bioko Island part of Equatorial Guinea in order to service the key oil supply and demand centers throughout West Africa. Uniquely positioned to provide global partners with world-class facilities, the oil terminal will be developed in phases.
