Affordable Solar are solar specialists that provide solar power consulting and systems installations in the Cayman Islands. They provide a wide range of services to commercial and residential projects, including the CORE programme and off-grid solar systems, and solar heating solutions for water (laundry, bathing, etc.).

Also referred to as feed-in-tariff programs, this process involves installing solar panels on your property and selling that power back to the grid. The power generated by the solar panels connects directly into the electric utility feed. In Cayman Islands, this process is called the CORE program. Inverters:
