

Will Mauritania get a big green energy project?

Image by GreenGo Energy () Danish renewable energy developer GreenGo Energy Group on Monday unveiled plans for a huge green energy project in Mauritania that will involve 60 GW/190 TWh of hybrid solar and wind generation and 35 GW of electrolysis capacity.

Should Mauritania invest in wind energy?

A major investment in wind energy infrastructure in Mauritania could not only provide a significant source of renewable energy for the country, but also make a significant contribution to global efforts to reduce reliance on fossil fuels and combat climate change.

Is Mauritania leading West Africa's green energy transition?

As Mauritania leads in west Africa's green energy transition, significant investment is being made in hydrogen, solar and wind energy developments.

Who owns Mauritania's electricity plant?

Completed in 2017, the \$53 million plant is run by the national electricity company, Soci t  Mauritaniaenne d'Electricit  (Somelec), and has seen ongoing works since its inauguration by (then) President Mohamed Ould Abdel Aziz, removing an estimated 57,000 tonnes of CO₂ per annum and supplying 10% of Mauritania's net energy production.

Does Mauritania have solar?

TOUJOUNINE - Solar Averaging seven days of rain a year, Mauritania's climate is ideal for solar and the country's first major development in the sector did not disappoint in this regard with 54,000 panels supporting 50 MW production capacity at Toujounine, on the northern outskirts of the nation's capital.

Does Mauritania have a green hydrogen industry?

Proximity to load centers in EU is an additional benefit," he said. The European Commission recently launched a new initiative to help Mauritania develop its green hydrogen industry. Last week, renewables developer CWP Global said it is making progress on a planned 30-GW green hydrogen development in Mauritania.
