

How many MW of new battery storage capacity does Greece have?

The Greek energy regulator has awarded 300 MW of new battery storage capacity in the nation's second energy storage tender, split among 11 projects. The tender is part of the country's 1 GW energy storage auction program. The projects range in size from 8,875 MW/17,75 MWh to 49,9 MW/100 MWh).

Does Greece have a battery storage pipeline?

Greece has emerged as one of the countries with the largest pipeline of battery storage projects, but as yet there has been little activity on the ground. This is changing as the long-awaited storage subsidy auctions have started, with the first projects being awarded support for both investment and operating costs.

How many companies have won support for a battery project in Greece?

Seven companies have won support for 11 standalone battery projects at Greece's second energy storage auction.

Will Greece be Europe's fourth largest battery storage market by 2030?

Jon Ferris, LCP Delta's Head of Flexibility and Storage, looks at the dynamics which could play out in rounds two and three in Europe's fourth largest market by 2030 pipeline. Greece has emerged as one of the countries with the largest pipeline of battery storage projects, but as yet there has been little activity on the ground.

How much does an energy storage auction cost in Greece?

The projects range in size from 8,875 MW/17,75 MWh to 49,9 MW/100 MWh). The regulator said the auction was highly competitive, leading to an average tender price of EUR47,680 (\$51,506)/MW per year. Greece's energy storage auction program awards contracts-for-difference (CfD) over periods of 10 years.

What is the Greek energy storage tender?

The tender is part of the country's 1 GW energy storage auction program. The Greek energy regulator has awarded 300 MW of new battery storage capacity in the nation's second energy storage tender, split among 11 projects. The tender is part of the country's 1 GW energy storage auction program.

ABO Wind has been active in Greece since 2017. Currently, the company is working on five additional Greek solar projects in the Epirus region that had won tariffs in a recent tender. Commissioning of these 50 megawatts ...
