

Who is Bluewater Energy Services?

Bluewater Energy Services |31,460 followers on LinkedIn. Bluewater specializes in the design, lease, ownership and operation of Floating Production Storage and Offloading (FPSO) vessels; and the design and supply of advanced turret mooring systems and CALM Buoys.

Who is Bluewater?

Since its foundation in 1978, Bluewater has built a technological lead specialising in design, development, lease and operation of tanker- based production and storage systems, and has become a leading provider of innovative Single Point Mooring systems.

What services does Bluewater provide?

The company also provides operational and logistic management and support for FPSO and FSO systems. Since 2006 Bluewater has developed various technologies for renewable energy.

Who is Bluewater mooring & energy production?

At Bluewater we use our decades of experience to provide safe and reliable offshore solutions. We take pride in being one of the technological leaders for offshore mooring and energy production systems. We take care, think dynamically, are inspired to make impact and are committed to deliver.

What mooring systems does Bluewater offer?

Bluewater has developed some of the most innovative SPM solutions, including catenary anchor leg mooring (CALM) buoys and tower, internal and external turret mooring systems. Bluewater's tidal energy converter (BlueTEC) is an open-architecture floating support platform suitable for tidal turbines.

How many FPSOs does Bluewater own?

Since 2006 Bluewater has developed various technologies for renewable energy. Through the years, Bluewater designed, owned and operated ten FPSO's (Floating Production Storage and offloading systems), of which three have been retired and two have been sold back to the oil companies. Presently, Bluewater owns and operates five FPSOs for our clients.

Bilfinger Tebodin heeft voor zijn klant Bluewater Energy Services B.V. een European Energy Efficiency Directive (EED) audit uitgevoerd. De EED werd actief in 2012 en onderdeel van deze richtlijn is het uitvoeren van een EED-energieaudit die elke vier jaar vernieuwd moet worden. Omdat we in 2016 een EED-energieaudit voor Bluewater hebben uitgevoerd, vroegen ze ons ...
