

What is a BMZ battery system?

This system enables homeowners to maximise their energy independence and sustainably reduce their energy costs. The BMZ Group develops and produces high-tech battery systems, which are installed worldwide in the most diverse products of well-known brands. In addition to OEM products, BMZ also manufactures battery systems with its own brands.

What is BMZ Group?

BMZ Group is a significant international player in the Renewable Residential Energy Storage market with lithium-ion battery systems. As a system provider and specialist for intelligent battery solutions, BMZ offers high-tech products that are developed and produced according to customer requirements.

Where can I find a BMZ e-bike?

Visit one of our BMZ E-Bikestore branches today and find your dream e-bike! As an open system provider, the BMZ Group develops and produces high-quality complete systems for e-bikes, pedelecs and cargo bikes under its e-bike brand "BMZ Drive Systems". The battery technology is customized and standardized by BMZ.

Where is BMZ located?

Independent sales offices in France, UK and Japan serve as contact point for local customers. Not only does BMZ have a leading position in Europe, it is also an important player on the world market in the dynamically growing market for lithium-ion battery systems. The head office of the holding has its headquarters in Karlstein /Main.

What is BMZ RS battery technology?

The battery technology is customized and standardized by BMZ. The original development of the BMZ RS began back in 2016 and aimed to offer a complete solution consisting of display, battery and motor. With the start of series production in mid-2019 and the ramp-up to a large number of units per year, the correctness of the concept was confirmed.

Are BMZ batteries good for electric drives?

Many OEMs have already recognized these advantages and are switching to electric drives. BMZ batteries set standards for electric drives. They combine maximum performance with compact dimensions and low weight. Together with our customers we develop customized battery solutions from design to design-to-cost for all application areas.
