

Bos storage systems Samoa

Who is Bos balance of storage systems?

Exciting stories about people and our planet evolve from it, stories that we love to share. BOS Balance of Storage Systems AG is a young high-tech company based in Germany. The focus on innovation in smart load management and reliable battery management systems, made BOS energy storage systems and batteries one of the most popular in their market.

What is a Bos home storage unit?

BOS provides the professional installation of photovoltaic systems on home roofs or commercial sites, increasing the independence from the electricity grid and rising prices. BOS home storage units are designed to make solar energy available at any time - at night, during bad weather or in the event of a power outage.

Why should you choose Bos energy storage systems?

The thoughtfully engineered energy storage systems are designed as turnkey solutions making it easy to build and maintain systems up to 300 kWh in challenging and remote areas. In the process, BOS supports customers as an expert and technical partner for customized systems in the commercial and development sector up to capacities in the MWh range.

What is a Bos battery?

The BOS battery S is a lithium ion battery equipped with LiFePO₄ cells for superior safety. Its groundbreaking design results in limitless use cases and unmatched space efficiency. The unique technology enables a state-of-the-art Battery Management System.

How long does a Bos battery take to charge?

With a charging time of only 1 hour and its swap concept, the BOS battery S fits perfectly for applications with charging stations where the lithium energy storage needs to be recharged in a brief time to be transported back to its operating location. With safety and compatibility as a core value, the BOS Battery S has been extensively certified.

How many MWh does Bos have?

With a total installed capacity of more than 22 MWh, BOS has become one of the pioneers in storing clean and affordable energy worldwide. © 2024 BOS Balance of Storage Systems AG.
