

Who is the best solar tracker company in Brazil?

According to Woodmackenzie Power &Renewables,Nextrackerholds the no. 1 position for solar trackers in Brazil with 38% market share. The company won six projects in the past nine months with a cumulative capacity of 2.6 GW,bringing their total tracker projects in Brazil to 5.5 GW either in operation or under fulfillment.

Does Brazil have a solar tracker market?

According to analyst firm Wood Mackenzie Power &Renewables,Brazil's solar tracker market is growing four times as fast as the international market,with single-axis tracker installations having increased by 105% (or 5.7 GW) in 2021. Brazil has a goal to achieve 45% of its energy from renewable sources by 2030. About Nextracker

How many solar projects are there in Brazil?

Notable Brazil projects include the Jana complex (1.2 GW) and Sol do Cerrado (766 MW). With a local workforce to support the complete life cycle of solar projects spanning sales, operations, and technical support, Nextracker has already supplied solar trackers to 16 utility-scale solar plants in Brazil, from Cear to S Paulo.

Brazil's climate and geography make solar the most attractive renewable alternative and will help to drive down energy prices, which have soared due to the lack of supply from hydroelectric systems, he added.

July 06, 2023 - SolarEdge Technologies, a global leader in Smart Energy technology, announces the launch in Brazil of SolarEdge Home, a portfolio of energy management products for ...

Sorocaba (SP), Brazil, August 16, 2022 -Nextracker(TM), the global leader in smart solar trackers with the no. 1 market share position in Brazil, is partnering with FIT (Flex Instituto de Tecnologia) to launch South America's ...
