

How much does electricity cost in the BVI?

The 2015 electricity rates for BVI are of \$0.16 to \$0.24 per kilowatt- hour (kWh), lower than the Caribbean regional average of \$0.33/kWh. Like many island nations, the BVI is almost 100% reliant on imported fossil fuels for electricity generation, leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity.

Does the BVI have solar energy resources?

Based on renewable energy resources for proximate island nations, the BVI is estimated to have developable solar and wind resources, although no specific values have been published. In September 2014, BVIEC held a solicitation for companies to develop roughly 2 MW of solar photovoltaic Electricity Sector Overview

What is a British Virgin Islands Company?

British Virgin Islands company search and profiles. The British Virgin Islands (BVI) is a highly recognised jurisdiction in international finance. This is because of the confidentiality and privacy of the company regulations, low taxation and flexibility managing corporate structures.

Is the BVI reliant on fossil fuels?

Like many island nations, the BVI is almost 100% reliant on imported fossil fuels for electricity generation, leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity. Electricity Sector Data The British Virgin Islands Electricity Corporation (BVIEC) was formed by ordinance in 1978.
