

The Government of the Virgin Islands has signed an agreement for the Anegada Microgrid project, which will introduce renewable solar energy to the island. The agreement was signed through the BVI Electricity Corporation (BVIEC).

Construction has started on a solar plus storage project on the island of Anegada in the British Virgin Islands for a November 2023 commissioning date. The announcement by the Government of the Virgin Islands on 29 December, 2022, said the project combining solar PV and a battery energy storage system has a combined capacity of 2.1MW.
