

Why is Burkina Faso launching a solar power plant in Komsilga?

Loading... In a significant step towards enhancing electricity supply and sustainable development, Burkina Faso signs an agreement for a 50 MWp solar power plant in Komsilga. The initiative, led by the Minister of Energy and Energie Plus, aims to fortify renewable energy contributions, fostering economic growth and improved access to electricity.

How much solar power does Burkina Faso have?

Burkina Faso had just 62 MW of installed PV at the end of 2020. The World Bank has agreed to support Burkina Faso's Sustainable Renewables Risk Mitigation Initiative (SRMI) to improve access to electricity in rural areas with \$168 million.

Which country is developing a solar field in Burkina Faso?

The Zina solar field, which is being developed by Amea Power, is being financed by the World Bank's private sector arm and will be constructed in Mouhoun province. The International Renewable Energy Agency estimated Burkina Faso had 62 MW of grid-connected solar at the end of 2021.

Why is Burkina Faso launching a new energy project?

"This new project is in line with our strategy for the Sahel, which aims to double the rate of access to electricity by 2025, especially in rural areas, and to create the conditions for more private financing in the energy sector," explained Maimouna Mbow Fam, World Bank operations manager for Burkina Faso.

What will Burkina Faso's solar funds be used for?

The funds will be used to implement the country's Large Scale Solar and Rural Electrification Project. They will also support the government in outlining an upcoming tender for 325 MW of solar coupled with 335 MWh of storage capacity. Burkina Faso had just 62 MW of installed PV at the end of 2020.

Will Burkina Faso invest \$400 million in solar?

"This new scheme will enable Burkina Faso to mobilize more than \$400 million in private investment in solar production and innovative battery storage systems," added Alexis Madelain, project team leader at the World Bank.
