Cogen europe Moldova

What is COGEN Europe?
COGEN Europe is the European Association for? the Promotion of CogenerationWe work with the EU institutions and various stakeholders to promote policies and legislation that recognise the valuable role cogeneration technologies have to play in the framework of efforts to boost energy efficiency and reduce emissions.

What does the cogeneration sector do?
OUR VISION The cogeneration sector is committed to creating a resilient,decentralised,carbon neutral European energy system by 2050,with cogeneration as its backbone: 3 Building a robust evidence-base demonstrating the benefits of cogeneration. Using the expertise of our membership. Establishing strong coalitions and partnerships.

Is cogeneration a clean solution of choice?
Cogeneration: EU Industry Clean Solution of ChoiceThe study proceeds in two steps: first considering the point of view of a user,then the wider system oSmurfit-Kappa paper mill oExcess renewable electricity stored as H2. oExisting CHP upgraded to use fuel mixtures up to 100% H2.

The PACE Project supported the installation of more than 2600 fuel cell micro-CHP systems in residential buildings and business premises spread across 9 European countries, successfully demonstrating the market and consumer ...

Cogeneration at the heart of European industry and communities 6 In the European Union: o Cogeneration saves 356 TWh of energy every year, equivalent to the total energy consumption ...

20 November 2024 COGEN Europe (the European Association for the Promotion of Cogeneration) held its Annual Conference in Brussels on 14 November 2024. The Conference ...

o Generate demand for "Made in Europe" net-zero technologies by supporting necessary investments by European industry, utilities and other energy users. These priorities can ...

COGEN Europe seeks to influence EU policies and legislation with a special focus on energy, climate and environmental issues. We share our policy positions with policymakers, ...
