

Does Colombia have a sustainable economy?

Colombia has been pushing to wean its economy off fossil fuels since it installed its first leftist president more than two years ago. But it has struggled to move more into agriculture, tourism, and renewable energy industries.

Why are Colombians worried about Ecopetrol?

Alleged interference by Colombian President Gustavo Petro in majority state-owned Ecopetrol and purges of hundreds of staff to make way for pro-government replacements are fueling fears about the energy company's future profits and contributions to the economy.

Will Energa Bogotá connect other wind farms to the grid?

However, Grupo Energa Bogotá, whose principal shareholder is the city of Bogotá, is building transmission lines that are expected to come online in two phases over the next two years, connecting other wind farms to the grid -- something Camacho says reflects lessons learnt from the experience with Enel.
