

Comoros octopus energy solar battery

Does Octopus offer a solar installation?

Thank you for your understanding. Octopus is offering £1,000 off a solar installation installed by them; the initial estimation I received is surprisingly low. For £10,000 (0% VAT) they are including: A Giv-Energy 5.2kWh Battery (!) I have not compared prices yet, but what has been other people's experience been of Octopus's solar installations?

What is octopus solar?

Much more than just an installation Turn your roof into a smart roof. Produce your own green energy and save on your bill. Reduce your bill by 65% or more We connect our technology to your panels. You will save more thanks to the Octopus Solar Tariff and our virtual Octopus Solar Wallet. Reduce your bill by 75% or more

How much does octopus battery installation cost?

The cost of installation can depend on how many panels you need, whether you choose to have battery storage and what size of battery you require. As of May 2024, the cost of a panel-only installation by Octopus starts from £4,100] (for 4 panels), while a 10 panel installation and a 5kWh battery (our most popular system) costs £9,199.

Does the Tesla Powerwall work with Octopus Energy?

The newest edition of the Tesla Powerwall is now available for installation with Octopus Energy. Just like our standard battery options, it pairs seamlessly with your PV panels to store energy when the sun shines, whilst boasting premium features that could provide greater longevity.

Why should you choose octopus solar?

You will save more thanks to the Octopus Solar Tariff and our virtual Octopus Solar Wallet. Reduce your bill by 75% or more We guarantee you 3 years without bills, and we manage your battery to charge it during the cheapest hours so that you can use it during the most expensive ones.
