Obiectul principal de activitate fiind: Furnizarea energiei electrice; Comercializarea energiei electrice

Costa Rica has a strong focus on renewable energy, with 99.78% of the energy output coming from renewable sources in 2020. However, solar power currently accounts for less than 1% of the country's energy production. In November 2021, Costa Rica approved a bill that allows individuals to produce their own renewable electricity and sell their surplus energy.
