

In November 2021, APM Terminals (51%) and Enna Logic (49%) signed a concession agreement to design, construct and operate a state-of-the-art container terminal, Rijeka Gateway, on Croatia's North Adriatic coast. The Rijeka Gateway will be developed in two phases, with phase one due for completion in 2025.

Project company Rijeka Gateway, the joint venture between Maersk's APM Terminals and Croatian logistics firm Enna Logic set up to build a container terminal on ...

Rijeka Gateway, Croatia's largest logistics project, will be fully powered by renewable energy, significantly reducing CO2 emissions and other harmful gases. As a joint venture between APM Terminals and ENNA Group, the container terminal at Rijeka will be one of the most advanced in the Adriatic, with electrified and remotely operated equipment.

Rijeka Gateway, the largest project in the logistics sector in Croatia, has secured electricity from renewable energy sources for the operation of its container terminal. This will reduce CO2 and other harmful gas emissions significantly.
