

Cyprus smartguds solar panel

Who installs solar panels in Cyprus?

Cypriot solar panel installers - showing companies in Cyprus that undertake solar panel installation, including rooftop and standalone solar systems. 49 installers based in Cyprus are listed below.

What are solar panels used for in Cyprus?

Solar panels in Cyprus are used for residential, industrial and commercial properties. Other than home use, many businesses install photovoltaic panels in Cyprus for self-consumption. That is, they use the energy the photovoltaic system generates directly, but cannot store any excess energy for following months.

Does Cyprus support photovoltaic systems?

The government of Cyprus, along with the RES and Energy Conservation Fund, offers support schemes for the installation of photovoltaic systems. This is because solar power is considered to be the future of energy and promoting the use of renewable energy sources is a priority.

Who is eligible for a photovoltaic system in Cyprus?

Anyone with Cyprus permanent residency is eligible for a photovoltaic system in Cyprus, given that the property they want the panels to be installed on is interconnected with the EAC network and it was built according to the regulations of the Department of Town Planning and Housing.

Are solar street lights a good idea in Cyprus?

Solar lighting uses LED lights which are very beneficial. Solar street LED lights are water-resistant, cost-effective, and low maintenance. Moreover, their light attracts much fewer insects than regular streetlights. Solar LED streetlights in Cyprus have a longer lifespan and easier installation than common lights, hence the lower cost.

How long do photovoltaic panels last in Cyprus?

Photovoltaic panels in Cyprus require minimum maintenance. The lifespan of photovoltaic panels in Cyprus can reach 25 years. The real estate market in Cyprus has shifted towards sustainability and the photovoltaic systems play a huge role in adding extra value to properties.
