

What is energy in the Czech Republic?

Energy in the Czech Republic describes energy and electricity production, consumption and import in the Czech Republic. OKD is a major mining company in the Czech Republic. Coal usage: 2019 40.9 Mt, 2020 31.5 Mt, 2021 31.4 Mt, 2022 35.1 Mt. The country aims to phase out coal power by 2038 or earlier.

Does the Czech Republic have a new energy policy?

The Czech Republic approved a new National Energy Policy (SEP) aiming to reduce energy consumption and improve the economy's energy intensity. However, reaching the targets of the SEP will require greater effort if the country is to play its part in the g

Is coal still a key energy source in the Czech Republic?

As the country's only domestic fossil fuel, coal has been and still is a key energy source in the Czech Republic. In 2019, it accounted for one-third of total energy supply, 46% of electricity generation and over 25% of residential heating.

Is the Czech Republic ready for a phase-out of coal?

A key challenge of the Czech Republic's energy sector over the next decade is to prepare for the phase-out of coal from the energy mix. As the country's only domestic fossil fuel, coal has been and still is a key energy source in the Czech Republic.

Can the Czech Republic retrain coal miners and power plant workers?

The Czech Republic is hence well placed to leverage the funding to be provided under the European Just Transition Fund, which can be used, among others, to retrain coal miners and power plant workers. The Czech Republic has progressed notably in terms of energy efficiency measures since the IEA's last in-depth review in 2016.

Do renewables play a major role in TES in the Czech Republic?

Renewables do not yet play a major role in TES in the Czech Republic, although their share has increased by 71% since 2009, reaching 16% of total final energy consumption (TFEC) in 2019, mainly driven by bioenergy. Renewables accounted for 22% in heating and cooling, 14% in electricity generation, and less than 8% in transport in 2019.
