

Who is Ningbo Raytech?

Ningbo Raytech New Energy Materials Co.,Ltd. is a comprehensive manufacturing enterprise integrating R&D, engineering, manufacturing, sales and after-sale services based on the concept of "New Energy and New Materials".

What is energy in the Czech Republic?

Energy in the Czech Republic describes energy and electricity production, consumption and import in the Czech Republic. OKD is a major mining company in the Czech Republic. Coal usage: 2019 40.9 Mt, 2020 31.5 Mt, 2021 31.4 Mt, 2022 35.1 Mt. The country aims to phase out coal power by 2038 or earlier.

What makes Raytech unique?

The company has independent product R&D teams, national key laboratory and 1.2 GW full-automatic manufacturing line. Raytech's production scale, product range and manufacturing standards are on a leading position in the industry.

Does the Czech Republic have a new energy policy?

The Czech Republic approved a new National Energy Policy (SEP) aiming to reduce energy consumption and improve the economy's energy intensity. However, reaching the targets of the SEP will require greater effort if the country is to play its part in the g

Does the Czech Republic produce natural gas?

The Czech Republic has no significant production of natural gas or oil and is fully dependent on imports. The country is integrated into regional transmission systems and can purchase oil and gas from different countries based on market prices in Rotterdam or elsewhere. Most oil and gas are imported via Germany.

How many patents does Raytech have?

As of 2020, the team has developed 67 intellectual patents for our double-glass products. The delivery of products to the customer is just the beginning, Raytech will continuously provide consulting services including supplying, customizing, engineering, construction and O&M technical support regarding product utilization.

In the context of the rapid rise in energy prices, the Czech Republic is increasingly interested in roof solar systems. Due to higher energy costs and government grant schemes, the current return on investment in these systems is about eight years or less for most families.
