

This page is also available in a full version containing the legal context, other dossiers related to the dossier at hand, the stakeholders involved (e.g. European Commission directorates-general, European Parliament committees, Council configurations and even individual EU Commissioners and Members of the European Parliament) and documents of the European Parliament, the ...

The Roadmap is part of a broader piece of work supported by the UN system, to assist Timor-Leste to develop an Integrated Financing Framework (INFF) and help it meet the SDGs. An INFF helps governments to unlock new sources of public and private finance for the SDGs, as well as use financial resources more strategically.

Key points The EESC points out the link between the energy transition and the digital transformation, stressing the benefits of digitalisation in terms of energy savings, reduced energy intensity and better management of energy infrastructure. The EESC stresses the importance of strengthening the role of active consumers in digitalisation and of encouraging and entitling ...

Timor-Leste's HDI was 0.607 in 2021, ranking it 140 of 191 countries and territories and below the average of 0.749 for countries in East Asia and the Pacific [47]. As shown in Fig. 3, Timor-Leste's health (life expectancy) index has steadily improved since 2001, and the education index has largely plateaued. The income index, based on Gross ...

Petroleum in Timor-Leste o Timor-Leste has known petroleum occurrences in all its territories, both onshore and offshore o The petroleum geology of T-L is almost identical to what is found on the Australian Northwest shelf o Petroleum has been explored for ...

East Timor: How much energy does the country consume each year? Click to open interactive version. How much total energy - combining electricity, transport and heat - does the country consume each year? ... To reduce CO₂ emissions and exposure to local air pollution, we want to transition our energy systems away from fossil fuels towards ...

A key accomplishment is the successful delivery of the first-generation blueprint for a CERF for energy-saving applications under the Horizon2020-supported InterConnect project will further expand the development and real-life testing of advanced solutions to support consumers in managing energy consumption more effectively, contributing to a more efficient and reliable ...

Background. In October 2022, on top of the emergency interventions to tackle the spike in energy prices, the European Commission adopted the Communication on Digitalising the energy system - EU action plan. According to the proposed energy action plan, new technologies and system-wide digitalisation can help

improve the efficient use of the energy ...

Questions and Answers: EU action plan on digitalising the energy system Strasbourg, 18 October 2022 1. Why is the Commission proposing a plan to digitalise the energy system? To end the EU's dependence on Russian fossil fuels and tackle the climate crisis, our energy system requires a deep transformation, in which digitalisation plays a central ...

developing areas. Energy self-sufficiency has been defined as total primary energy production divided by total primary energy supply. Energy trade includes all commodities in Chapter 27 of the Harmonised System (HS). Capacity utilisation is calculated as annual generation divided by year-end capacity x 8,760h/year. Avoided

for Timor-Leste (East Timor). The study was financed by Asian Development Bank (ADB) under its TA No. 3748-TIM: Preparing the Power Sector Development Plan. This study is the first of its kind, and establishes the basis for future development of the power sector in Timor-Leste, including generation, transmission, distribution and

Why digitalising procurement systems is the ...

The study was concluded on the 29 May and analysed several sources available in our national territory, such as wind, hydro, biomass and solar energy. The result was promising, as explained by the Secretary of State for Energy Policy, Avelino Coelho: "the study shows that Timor-Leste possess a strong potential in the renewable energies area.

Technicians in Timor-Leste have experience in small-scale, off-grid solar energy systems. Commercial or industrial scale installations are more complex and appropriate technical capacity is scarce. Maintenance and spare parts Timor-Leste's rooftop PV solar industry is new and undeveloped. Limited availability of

specificity of the energy system. The increased energy demand for ICT systems needs to be adequately managed in the context of an integrated energy system. Thus, digital and energy value chains need ever increasing cooperation. The Action Plan will outline how different EU policies and funding instruments will work together to exploit

Thu. 01 of Outubro of 2020, 11:05h. The Secretary of State for the Environment, Demétrio do Amaral de Carvalho, participated, representing the Timor-Leste's Government, on October 1 st, 2020 (Timor-Leste time), in the Digital Conference "Environment in Portuguese" ("Ambiente em Português"), within the scope of the Energy and Climate Forum.

Speaking to Power Technology, Accenture's EMEA utilities lead Andrea Falciai elaborates on the key findings of the report and how DSOs can move forward with digitalisation.. Current state of DSOs' digital maturity: not a straightforward picture . The study assessed digital maturity through four capabilities reflecting the end-to-end DSO value chain: build, the DSO's ...

Digitalisation has an impact along the entire energy value chain, ranging from generation to transport, distribution, supply and consumption. The EU action p...

operators involved in the energy sector in Timor-Leste. The purpose of this report is to assist the government of Timor-Leste, in particular the office of the Secretary of State for Energy Policy, to develop policies in key areas that would guide planning of the subsequent phase of its ongoing rural energy programs. The selected key areas in

Australia should support Timor-Leste in progressing from observer to member of ASEAN. Timor-Leste's accession into ASEAN is a shared interest. Australia sees Timorese ASEAN membership as positive for both ASEAN, Timor-Leste and Timor-Leste's engagement on the global stage. Australia has strong ties with ASEAN's diverse member states.

Leste. Timor-Leste is a lower middle-income country with a population of 1.2 million and a landmass size of 15,410 km². The country belongs to the Small Island Developing States group. Timor-Leste emerged from a history of colonial rule and foreign occupation through a short but devastating period of civil unrest and conflict.

Timor-Leste needs to address these challenges effectively and sustainably to transform its food systems to benefit the population across all demographics groups. Investment is required across the elements of the food system to improve the linkages from food production to processing and marketing and ensuring quality and affordable nutritious

Timor-Leste has amount of the stock biomass in ecosystems for power production. The biomass resources in Timor-Leste were recorded in 2009 with a total biomass above ground of 127,528,335 tons ...

COVID-19 made many technological changes in our lives; Cruz Vermelha de Timor-Leste (Timor-Leste Red Cross - CVTL) was no different. Lockdowns and restricted travel, made us see the need to adapt to new technologies. Zoom meetings became a regular mode of communications with Partners and colleagues.

Speaking to Power Technology, Accenture's EMEA utilities lead Andrea Falciai elaborates on the key findings of the report and how DSOs can move forward with digitalisation.. Current state of DSOs' digital maturity: not a ...

The primary education system in Timor-Leste is designed to cater to children aged 6 to 14 years, spanning a

Digitalising the energy system Timor-Leste

total of nine years, divided into two cycles. The first cycle comprises the initial six years of education, while the second cycle encompasses the final three years. This structure aims to provide a comprehensive foundation for young ...

Sunda Energy's wholly owned Timor-Leste subsidiary SundaGas Banda Unipessoal Lda. ("SundaGas") is the Operator of and 60% interest holder in the offshore Timor-Leste TL-SO-19-16 PSC. The remaining 40% interest is held by a subsidiary of the Timor-Leste state oil company Timor Gap, E.P., whose interest is carried by SundaGas to development.

We did this in order to understand the dynamics of how the energy transition is affecting one of our closest neighbours. The Timor Sea separates Dili and Darwin. Image: Pell Center . About Timor-Leste. Timor-Leste (also known ...

Digitalising the energy system is crucial to delivering the Prime Minister's Ten Point Plan for a Green Industrial Revolution, 4. which set out an ambition to building significant levels of low carbon infrastructure by 2030. The . Energy White Paper. set out the need to build

About GEO. GEO is a set of free interactive databases and tools built collaboratively by people like you. GOAL: to promote an understanding, on a global scale, of the dynamics of change in energy systems, quantify emissions and their impacts, and accelerate the transition to carbon-neutral, environmentally benign energy systems while providing affordable ...
