Registered office: Drax Power Station, Selby, North Yorkshire YO8 8PH Drax offers Power Purchase Agreements (PPAs) that are matched to your business's generation. Corporate PPAs with fixed, flexible and bespoke options.

Where is Drax based?

The principal downstream enterprises are based in the UK and include Drax Power Limited, which runs the biomass fuelled Drax power station, near Selby in North Yorkshire. The Group also runs an international biomass supply chain business. The company is listed on the London Stock Exchange and is a constituent of the FTSE 250 Index.

Who owns Drax power stations?

The power stations which Drax is selling are owned by Drax Generation Enterprise (DGEL), which also holds Drax's pumped storage and hydro assets and is a shareholder in Daldowie fuel plant owner SMW. The fuel plant can convert 1,000 t of sewage sludge into 23.5 t of biomass pellets.

Where does Drax power come from?

Its name comes from the nearby village of Drax. It is situated on the River Ouse between Selby and Goole. Its generating capacity of 3,906 megawatts (MW), which includes the shut down coal units, is the highest of any power station in the United Kingdom, providing about 6% of the United Kingdom's electricity supply.

What happened to Drax Power Station?

One significant change was the emergence of vertically integrated companies, combining generation, distribution and supply interests. In certain cases, it became necessary for generation assets to be divested, and so in 1999 Drax Power Station was acquired by the US-based AES Corporation for \$1.87 billion (US\$3 billion).
