DYNESS DL5.0C adopts economic design, and is tailor-made for residential & small commercial application. This LFP battery module supports remote update and APP monitoring, and provides multiple installation methods. It is scalable from 5.12 -256 kWh (max. 50 modules in parallel), providing various energy storage options to meet different requirements.

Dyness DL5.0C battery module with an economical design suitable for residential and small commercial premises. This LFP battery module supports remote update and monitoring via APP and provides multiple installation methods. It is scalable from 5.12 -256 kWh (max. 50 modules in parallel), providing different energy storage options to meet different requirements.

High energy density battery, ultra-compact, light weight. Compact size makes Dyness PowerDepot H5B is easy to handle. DC breaker embedded, safer, easier. ... Dyness PowerDepot H5B, 5.12 kWh. NSW Battery Rebate approved!! Login to see our prices. Compact Size & Light Weight. High energy density battery, ultra-compact, light weight.

The Dyness home energy storage system incorporates a high-efficiency system architecture, and its core energy storage components use deeply optimised lithium iron phosphate batteries to form standardised and easily expandable energy storage modules. The solution supports the flexible configuration and capacity increase of PV and energy storage modules, accurately matching ...
