5 Ways to Charge. Most solar generators have three recharge options: AC outlet, solar panels, and 12V car socket. The EcoFlow Delta Pro has all of these, plus two more: smart generator and EV charging station.. The smart generator is a gas generator that can charge your Delta Pro. This is useful in an emergency when the Delta Pro runs out of power.

Solar generators are available as both portable generators and backup home generators. Most solar generators are portable, lightweight, and have a built-in handle. The best portable solar generators are used to provide power for construction sites, campers, events, or other settings where access to electricity is limited.
