

Egypt ginlong solis technologies

What is Ginlong (Solis) Technologies?

Ginlong (Solis) Technologies, with the stock code 300763.SZ, was established in 2005. It is a company that has one of the widest installed bases of string inverters globally. Their inverters convert DC to AC power and interact with utility grids in markets worldwide, reducing carbon footprints and enriching society.

What is Ginlong Solis?

Ginlong Solis is a company that provides residential, commercial and utility-scale sectors with sustainable solar products while promoting a scientific, green and humanistic culture. They offer the SOLIS-MINI-3600-4G, a 3.6kW Mini Series inverter with a precise MPPT algorithm and a maximum efficiency above 97%.

Who is ginlong technologies?

Ginlong Technologies manufacture and develop products for all solar market sectors. Our strength in research and development, coupled with our world class supply chain and manufacturing capabilities mean we are able to tailor and optimise our products for regional markets.

What is a Solis string inverter?

Trading under the brand name Solis, our cost effective and innovative string inverter technology is optimised for local markets, delivering significant long-term return on investment and accelerating the transition to a more sustainable future by reducing the global carbon footprint.

Are Solis solar inverters reliable?

Presented under the Solis brand, the company's solar inverter product line uses innovative string technology to deliver first-class reliability, validated under the most stringent international certifications.

What makes ginlong a great inverter company?

Combining a global supply chain with world-class R&D and manufacturing capabilities, Ginlong optimizes its Solis inverters for each regional market, servicing and supporting its customers with its team of local experts.
