

What services does elemental provide?

Elemental's services included the design and implementation of a national energy balance, developing energy supply and associated emissions forecasts, analysis of the impact of renewable energy technologies on future energy supply, and a framework report.

Can solar power be used in Palau?

Solar has high potential for deployment in Palau within its existing net metering regulations and financing mechanisms, and could support a reduction in fossil fuel imports.

Why did elemental provide a full environmental impact assessment?

Elemental provided a full Environmental Impact Assessment for a Water Treatment Plant in Anguar, Palau. This was required for an environmental permit to be issued to allow for the safe operation of the Water Treatment Plant and discharge of backwash into the local harbour.
