

CINCINNATI, Nov. 13, 2019 /PRNewswire/ -- Workhorse Group Inc. (NASDAQ: WKHS) ("Workhorse" or "the Company"), an American technology company focused on providing sustainable and cost-effective electric-mobility solutions to the transportation sector, today announced that EnerDel would be an additional key battery supplier for its next generation C ...

EnerDel's battery packs are designed to meet the challenging power and energy requirements of a variety of applications. Our packs offer versatility across a variety of applications including transportation, heavy duty buses and trucks, industrial equipment, trolley buses, trams, construction, agricultural machines and military and civilian mobile hybrid power systems.

EnerDel was the first company in the U.S. to mount a commercial-scale production of large-format, prismatic, lithium-ion battery packs and over the past decade, the company has worked to perfect the prismatic pouch cell design and modular stacking architecture, providing customers with production-ready solutions to address a variety of power ...

Lithium-ion battery manufacturer EnerDel will invest \$237 million in a new manufacturing plant near its Indianapolis area headquarters in order to meet anticipated demand for batteries used in automotive and other industrial applications. ... EnerDel produces the batteries from raw materials and equipment produced in Japan and Korea since there ...

Workhorse Selects EnerDel As Battery Supplier: Orders 5,200 Packs Prototype testing shows that a 70 kWh EnerDel pack can take a fully loaded C-Series vehicle for 125 miles (200 km) on a single charge.

A little background: Enerdel supplied batteries for a car called the Th!nk City. It used a slightly different pack, but there are definitely similarities. Most of the information I've gotten so far is from someone who was pretty deep into sorting those. The Think packs has 8 of the modules instead of 4, and they were less capacity individually ...

Less than a month after laying off all of its workers, Anderson-based battery manufacturer EnerDel Inc. is declaring bankruptcy. The company filed for Chapter 7 bankruptcy July 13 in U.S ...

When judging a battery or cell for pure power performance, the Short Discharge Time is a useful parameter or tool to use. Here is a white paper on it and a chart with popular cells including this EnerDel product. Interesting that it fairs better than the A123 20Ah cell.
