

What is the Energy Outlook for Costa Rica?

This information is based on IEA analysis carried out within the framework of Latin America Energy Outlook 2023. Costa Rica Energy Profile - Analysis and key findings. A report by the International Energy Agency.

Where can I find solar energy in Costa Rica?

Produced by the Direction of Communication, Costa Rican Institute of Electricity (ICE), San José, Costa Rica. Guanacaste Wind Park. Miravalles III Geothermal Plant. Miravalles Solar Park.

Which geothermal plant produces 100% of the energy in Costa Rica?

ICE produces 100% of the geothermal energy in the country. Las Pailas II Geothermal Plant. Biomass energy comes from organic waste; it can be agricultural or domestic. In Costa Rica, the main resource is the sugar cane bagasse generated by the cane refineries in Guanacaste.

Does Costa Rica have geothermal energy?

Costa Rica has researched and exploited it for almost 40 years. Today, Costa Rica exports its knowledge. Unlike the rest of renewable energies, which direct or indirect origin is solar radiation, geothermal is produced based on the heat that Earth transmits from its internal layers up to the surface; it is not climate dependent.

What is the energy matrix in Costa Rica?

The Energy Matrix is the total percentage of all natural resources from which energy is derived and then transformed into electricity to supply households, business and industries. In Costa Rica, ICE is in charge of managing and controlling this matrix through its National Control Center (CENCE) and the National Electric System (SEN).

When is wind energy produced in Costa Rica?

The biggest production of wind energy is between December and March. This period corresponds to the dry season when the rivers flow diminishes. By 2020, Costa Rica totals 18 wind plants; 16 of them are located in Guanacaste.

The Future of Solar Energy in Costa Rica. Costa Rica has long prided itself on being a global leader in renewable energy. The country's commitment to sustainability is evident in its goal to ...

For Costa Rica, the use of renewable energy is the future, officially confirmed by the Carbon Neutrality Program 2.0, which proposes a goal of 100% renewable energy. The project launched in 2017 and was implemented via the companies of Swissol and Rolls Royce, both of which offer significant experience in and positive impact on the generation ...
