

Energy solar sa Philippines

Who is Solar Philippines?

Leandro L. Leviste founded Solar Philippines in 2013. It is now Southeast Asia's largest solar company and integrated solar developer, EPC, and power generator, with a mission to make cheap, reliable electricity universally accessible.

Is Solar Philippines a good power company?

Solar Philippines was awarded as the Power Company of the Year at the 2017 Asian Power Awards, known as "the Oscars of the power industry." The company also won gold in two other categories: Solar Power Project of the Year for its 150 MW Tarlac Solar Farm, and Hybrid Power Plant of the Year for the Paluan Hybrid Solar Facility.

Are solar power plants coming to the Philippines?

Solar power plants are coming online across the entirety of the Philippines. Some models show that some major hubs may be able to source half of their energy needs from renewable energies. The low operating prices and potential for high energy creation will drive significant increases in solar capacity over the coming years.

How much does solar power cost in the Philippines?

Larger scale commercial-industrial and utility-scale solar power plants can produce electricity even more cheaply. Electricity costs in the Philippines are the highest among the Association of Southeast Asian Nations' (ASEAN) 10 member countries at around 10 PhP/kWh (USD0.20/kWh).

What are the benefits of solar energy in the Philippines?

Solar energy in the Philippines offers immense benefits, notably in energy security, economic growth, and environmental sustainability. The country is rapidly embracing solar power due to its affordability, technological advancements, increasing demand, and sustainability.

Where is Solar Philippines located?

Through our subsidiary Solar Philippines Calatagan Corporation, we built a 63.3MW solar farm in Calatagan, Batangas. Since the start of its operation in 2016, it has generated over 500GWh of clean energy, enough to power over six municipalities in Batangas, while sourcing the majority of its workforce from the locals in nearby areas.
