Xerogrid specify off-grid solar PV and battery storage equipment for direct export to grenada and the caribbean. We specialise in end-to-end delivery and distribution, as well as project management and support. Contact us today to ...

The energy regulator of Grenada is seeking expressions of interest (EOI) for a solar or solar-plus-storage project at the Caribbean island nation's main international airport. The country's Public Utilities Regulatory Commission (PURC) has issued an early market engagement (EME) announcement soliciting EOIs and requests for information (RFI ...

The Grenada Utilities Regulatory Commission is inviting expressions of interest for a 15.1 MW solar power project at Maurice Bishop International Airport, potentially including a 10.6 MW/21.2 MWh battery energy ...

The energy regulator of Grenada is seeking expressions of interest (EOI) for a solar or solar-plus-storage project at the Caribbean island nation's main international airport. ...

On April 30, 2024, GSL Energy installed a 20kWh home wall-mounted lithium iron phosphate (LiFePO4) energy storage system in Grenada. This system offers reliable backup power, energy independence, and supports sustainable energy solutions for residential customers. Learn more about GSL Energy's efficient, long-lasting energy storage products.

Energy storage product Grenada

Xerogrid specify off-grid solar PV and battery storage equipment for direct export to Grenada and the Caribbean. We specialise in end-to-end delivery and distribution, as well as project ...

The Grenada Utilities Regulatory Commission is inviting expressions of interest for a 15.1 MW solar power project at Maurice Bishop International Airport, potentially including a 10.6 MW/21.2 MWh battery energy storage system (BESS). The selected developer will handle project development, operation, and maintenance for 25 years.

The project aims to increase Grenada's reliance on renewable energy and reduce its dependence on fossil fuels. PURC is seeking an independent power producer (IPP) to ...

The project aims to increase Grenada's reliance on renewable energy and reduce its dependence on fossil fuels. PURC is seeking an independent power producer (IPP) to develop and operate either a 15.1MW standalone solar PV plant or a solar-plus-storage plant combining 15.1MW of solar PV and a 10.6MW/21.2MWh battery energy storage system (BESS).
