Who is Qatar Solar Energy?

Toggle Sliding Bar Area Qatar Solar Energy With more than 15 years of research and development with the board members in the solar photovoltaic industry,QSE has become the first vertically integrated PV manufacturer in the MENA region,producing silicon ingots,silicon wafer,PV cells up to the end product «PV modules».

Is Qatar a good place to develop solar energy?

Qatar boasts the ideal conditions for developing solar energywith its exceptional sunshine and vast unoccupied spaces. This is where the Al Kharsaah solar power plant,developed by TotalEnergies and its partners QatarEnergy and Marubeni,was inaugurated in October 2022.

Why is Qatar launching a solar power plant?

The start-up of the Al Kharsaah solar power plant represents a milestone in the country's energy history,since it is set to produce 10% of its peak electricity demand at full capacity. Over its lifespan,it will also enable Qatar to reduce its CO 2 emissions by 26 million metric tons.

Why should Qatar invest in solar energy?

Solar energy has multiple advantages for Qatar in the form of energy security, improved air quality, reduced GHG emissions, employment opportunities, apart from augmenting water and food security.

What's happening at Al Kharsaah solar power plant in Qatar?

The Al Kharsaah solar power plant in Qatar has been constructed,started up,and connected to the country's national grid.

How many megawatts will Qatar power by 2030?

With the addition of the new Dukhan Solar Power Plant,QatarEnergy's portfolio of solar power projects in Qatar will reach a capacity of about 4,000 megawattsby the year 2030. This represents approximately 30% of Qatar's total electrical power production capacity.
