

Energystore limited Nauru

Why should you choose energystore?

We promise to treat our customers as we would expect to be treated ourselves. Excellence is what drives energystore. From innovation in how we manufacture our products, highly trained installers and delivering customer service, we always aim to be the best at what we do.

What are the different types of energystore products?

Here are our 3 primary products: 1. energystore TLA; It combines eps beads coated in an innovative additive with cement to create non-combustible, pourable insulation for floors and roofs. 2. energystore superbead; These superbeads can be injected into multiple cavity wall scenarios and beneath your Beam & Block floors.

What is energystore superbead & energystore+?

energystore superbead; These superbeads can be injected into multiple cavity wall scenarios and beneath your Beam & Block floors. 3. energystore+ This range reduces embodied carbon using sustainable biofuel sources during manufacture and is RedCert2.

Do energystore installations save carbon?

Last year, energystore installations saved 32 million kilograms of carbon--the equivalent of taking 7,000 cars off the road. And for me? The growth has been personal as well as professional. I've been able to put my experience to work, building new relationships and driving results.
