" I am responsible for the control and energy reduction of the resort. Increasing energy costs greatly impacts the hotel's bottom line. I am constantly seeking energy saving solutions with a low ROI which can deliver significant energy savings whilst not impacting on hotel operations, plant and equipment or guest comfort.

Ten years ago, Building Management Systems (BMS) and SCADA were the tools that gathered together utility data and managed building systems. However BMS and SCADA systems were never designed to handle the increasing complexity of multi system optimisation and the extremely high volume of data involved.

Any of These Four Wall and Attic Insulation Systems Qualify for The EnergyWise Guarantee Program. In order to achieve ultra energy efficiency, it is necessary to use some form of foam insulation for your walls and attic roof.
