

Enphaseenergy Uganda

Who is Enphase Energy?

Enphase Energy, Inc. is an American energy technology company headquartered in Fremont, California, that develops and manufactures solar micro-inverters, battery energy storage, and EV charging stations primarily for residential customers.

What is Enphase 365 Pronto?

Enphase's 365 Pronto Platform is software that dispatches independent professionals to perform renewable energy services, including EV charger installations. The charge for your At-home Consultation will be processed through Enphase's Store.

How many microinverters has Enphase shipped?

Enphase has shipped more than 78.0 million microinverters, and approximately 4.5 million Enphase-based systems have been deployed in more than 160 countries, helping millions of people gain access to clean, affordable, and reliable energy while creating good jobs and a more carbon-free future for everyone.

Can off-grid electrification bridge energy gaps across Africa?

Off-grid electrification can bridge energy gaps across Africa, faster and more affordably according to ENGIE. Every day, families in Africa are able to access electricity for the first time using off-grid solar technology provided by ENGIE Africa.

Does Enphase offer at-home EV charger installation services?

Start by booking an At-home Consultation with an independent installation professional to receive a quote for your custom installation. Great news: Enphase's at-home EV charger installation services are available in your area. Unfortunately, Enphase's at-home EV charger installation services are not yet available in your area.

Will Engie support off-grid solar deployment in East Africa?

ENGIE will support off-grid solar deployment in East Africa, as part of a new partnership with the European Investment Bank. Over a million people in Uganda will be able to access electricity for the first time through this initiative, which will power communications, provide light, and make cooking easier.
