

Enso energy Pitcairn Islands

Will ENSO energy build a solar farm in Llyn Alaw?

Enso Energy is the latest company to consult on a large solar farm and energy storage facility on the island. They want to site solar panels on around 750 acres of farmland situated to the south of Llyn Alaw, predominantly used for grazing. The 160 megawatts (MW) at Alaw Môn Solar Farm would create enough power for around 34,000 homes.

Can solar energy replace fossil fuels on Pitcairn Island?

Pitcairn's authorities have launched a renewable energy project designed to replace fossil fuels with solar energy. The goal is to replace 95% of the current diesel consumption on Pitcairn Island (75,000 liters per year) with a combination of energy saving and solar electricity through the installation of a hybrid photovoltaic solar energy system.

What would ENSO energy do?

Enso Energy claim on their website the park would power 33,935 homes and create 160MW of solar generation, providing renewable electricity for distribution to the National Grid. An underground cable would connect the solar farm and battery energy storage facility to the substation at Wylfa Power Station.

Who owns ENSO Green?

The portfolio will be acquired from Enso Green Holdings (EGHL), a UK-based joint venture of Cero Generation and Enso Energy. It includes seven project sites, with solar power accounting for 380MW of its capacity and the remaining 340MW being battery storage.

How does ENSO energy use my sign-up?
