

Entech announces that it has won a framework contract with four public energy players located in Isère, Savoie, Loiret and Val d'Oise. The public tender, coordinated by GEG (Gaz Electricité de Grenoble), covers the supply of 6 sites with battery storage systems.

An English-taught broad-based education in a variety of key energy engineering disciplines, from renewable energy to decentralised power supply, energy economics and more Next to mastering the latest technologies in energy, you will gain an in-depth understanding of the role of innovation and entrepreneurship in the future of this industry.

September 16 (SeeNews) - French energy storage and solar photovoltaic (PV) technology company Entech SE has set a price range for its upcoming domestic initial public offering (IPO) at between EUR 5.91 and EUR 7.99 per share, seeking to raise proceeds of up to EUR 25.3 million (USD 29.9m) including overallotment.

French Guiana: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO₂ - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.

Renewable energy technology firm Entech has won a framework contract in France with four public utilities to deploy 50MWh of battery storage. ... Entech's deployed systems will provide frequency regulation services for the French and European power grids, replacing existing frequency control assets like legacy thermal power plants. The ...
