The Asian Development Bank (ADB) and the governments of Solomon Islands and Tonga have signed grant and loan agreements for energy projects on the sidelines of COP29. The ADB-supported projects will help the Pacific countries to transition from dependency on diesel fuel imports to renewable energy.

Known as PIGGAREP (The Pacific Islands Greenhouse Gas Abatement through Renewable Energy Project), this project aims at helping 11 Pacific islands overcome their barriers to using effective renewable energy technologies, including the Solomon Islands. All PIGGAREP activities require the support of co-financers.
