Find company research, competitor information, contact details & financial data for Wet World Energy Solutions AB of Vintrie, Skåne. Get the latest business insights from Dun & Bradstreet.

Energy in Equatorial Guinea is an industry with plenty of potential, especially in the fields of oil and natural gas. However, production has been declining in recent years due to under-investment and lack of new discoveries. In 2022, the country produced less than 100,000 barrels of oil per day (bopd) according to OPEC [1] data.

A 24 MW Wärtilä power plant located in Bata, the country's largest city, already provides thermal production of energy for continental Equatorial Guinea, a nation of 1.2 million inhabitants. Wärtilä has been present in the country for a number of years and has established a significant installed base throughout the African continent.
